

Spring Tune-up
Don's Auto Aid
Saturday April 22, 12 noon 'til 4PM
2s781 Rte. 59, Warrenville

For the fourth year Don's Auto Aid (Goodyear) will be hosting the annual tune-up party.

This is your opportunity to put your MG up on a service rack and see your car from the bottom up. Squishy brake hoses? Soft motor mounts? Suspension bushings looking a little sick? Now's the time to find out before the driving season arrives in full. Of course I'll be there to offer expert advice for any problem that may surface. Well, I can at least tell you who to see about it. Cowboy and others will be there to help out.

There is a Car Quest just up the street, but it would be best to bring your own 20w50 and filters. As Don's is a full service garage, all work must be finished so that the racks are open for business Monday morning. Tire mounting, including on wire wheels, and alignments will be available.

Don's is located on the east side of Rte. 59 about a mile north of the E/W tollway.

Afterwards it's off to Two Brothers Brewery for refreshments.
